

Dear Sir/Madam,

My name is Farouk, I am currently in my final year of my Master's degree, doing an apprenticeship at ABE Alsace, a subsidiary of SNCF Gare et Connexions in Strasbourg. My work involves maintaining their internal tool developed in Spring boot 3/Angular 14, as well as assisting them in drafting documentation demonstrating the utility of their IT tool. Once the project is approved by the regional management, it will be used by the 13 ABE agencies in France (by more than 1300 employees).

In search of a new challenge, I came across your company and I am very interested in the opportunities it offers in this field. I would love to have a discussion with you to talk about my next challenge.

Thank you in advance for your attention, and I am available to provide any further information you may need.

I am available starting from 01/08/2024 and mobile for missions abroad.

Phone number: (+33) 07 67 58 47 26

Best regards,  
Farouk BRAHIMI
